

Yarn cutter

- *Less weaving defects Increasing productivity*
- *Cost reduction due to long life materials*
- *Cost saving due to modular construction*
- *Varied accessories for individual fitting*

Yarn Cutter Type A

Modular yarn cutter type A "right version", made of black anodized aluminum with integrated yarn cutting equipment. The yarn guide is ensured by a polished ceramic eyelet.

Yarn Cutter Type B

Modular yarn cutter type B "left version", made of black anodized aluminum with integrated yarn cutting equipment. The yarn guide is ensured by a polished ceramic eyelet.

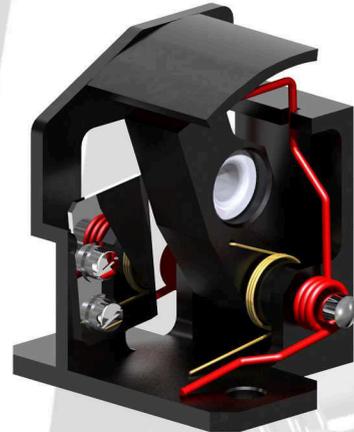

Yarn Cutter Type AK "Knot Killer"

Modular yarn cutter type A "right version" equipped with a 0.80 mm form spring type A/C. Suggested combination: Yarn cutter type AK in combination with filling brake BK, to block nearly all lops and knots and to ensure a fast cutting.

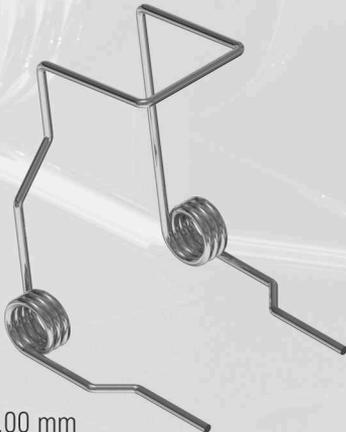

Option: Formed spring type A/A, type A/B, type A/C, type A/D and formed spring type A/E allows 5 different yarn-cutting-force-areas. The modular yarn cutter type A is delivered in the standard version with formed spring type A/A.

Yarn Cutter Type BK "Knot Killer"

Modular yarn cutter type B "left version" equipped with a 0.80 mm form spring type B/C. Suggested combination: Yarn cutter type BK in combination with filling brake BK, to block nearly all lops and knots and to ensure a fast cutting.

Option: Formed spring type B/A, type B/B, type B/C, type B/D and formed spring type B/E allows 5 different yarn-cutting-force-areas. The modular yarn cutter type B is delivered in the standard version with formed spring type B/A.

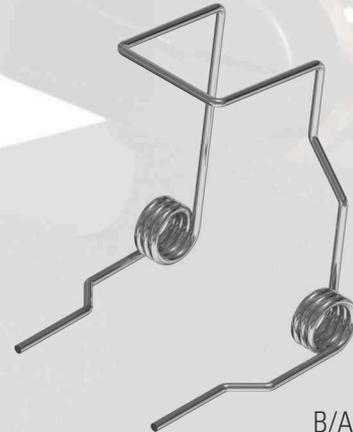

A/A = 1.00 mm
 A/B = 0.90 mm
 A/C = 0.80 mm
 A/D = 0.70 mm
 A/E = 0.60 mm
